

Pharma Strategy Analysis Report

CONFIDENTIAL - INTERNAL USE ONLY

1. Executive Summary

Thesis: High dependency on China for KSMs poses a significant risk. Diversification is critical to ensure business continuity.

Metric	Assessment
Confidence	Very High
Commercial Potential	Medium

2. Market Opportunity

Therapy Area: Anti-Infectives (Cephalosporins)

Target Geography: Global

Market Size: \$12,000,000,000

CAGR (3-Year): 2.1%

Supply Chain & Trade Risks (EXIM Data):

- Export Volume: 50,000,000 units
- Dependency Risk: Very High

3. Clinical Landscape (0 Active Trials)

NCT ID	Title	Phase	Status
--------	-------	-------	--------

4. Patent Intelligence (2 Key Patents)

- CN102345678A: Process for Ceftriaxone Sodium (Expires: 2030-05) [FTO: Low]
- US7654321B2: Enzymatic Synthesis of Cephalosporins (Expires: 2028-01) [FTO: Medium]

5. Strategic Recommendation

Recommended Path: Diversify Supply Chain / Backward Integration

Timeline: 12-24 months to qualify new suppliers

Next Steps:

- Identify alternate API suppliers in India/Europe

Pharma Strategy Analysis Report

CONFIDENTIAL - INTERNAL USE ONLY

- Audit suppliers for environmental compliance
- Stockpile KSMs for 6 months
